11. Announcements, Updates, and Questions for Staff

- **City of Tucson**, Ben Elias
 - 3rd Street and Alvernon feedback from various constituents received and had an internal team do a deep dive on what could be done (especially in a short timeframe) to upgrade the area; key parts speak to some aspects of the letter we have drafted. Improvement options are being considered currently, such as painting curbs, rumble strips / feedback, more signage, remove adjacent northern driveway access at 3rd, curb ramp and more. Suggestion from the committee to add a no turn on red sign for consideration (coming on to 3rd).
 - 9th Street / 5th Street and 9th Avenue package of RTA funded bicycle boulevard; design is completed and move toward construction (in the fall). Before that work is being done, taking advantage of pavement work / refresh along those alignments with existing funding sources.
 - Aviation bikeway has been selected to be resurfaced and repaired after the monsoon rains complete (Prop 411 funding).
 - Stone Avenue (first two-way protected bike lane), built in 2015, a plan to extend that project to the south. A project website will be up soon and will share.
 - West side bike boulevard package; 3 bike boulevards coming to the west side. Planning to add a new bike boulevard to that alignment, for a total of four.
- **Pima County**, Jonathan Crowe:
 - Pima county southwest mobility study continues through the end of June. Study will conclude early next year. Ending initial comment period through end of June.
