Regarding the 22nd St Bridge Project, the pedestrian/bicycle lane that was on the center of the bridge has been moved to the outer sides of the bridge. ACTION APPROVED BY MOTION

9. Motion Discussion and Vote on Sun Tran COA Recommendations – 15 minutes

Davita Mueller mentioned that Director Credio and James Castaneda will be presenting the COA Final Report tomorrow at the Mayor and Council meeting, it will be informational only. James said all documents will be uploaded to the Sun Tran website as soon as possible. Next, Davita said the 102 and 104 routes did not get negative feedback regarding the changes, but public input from riders will be requested before anything is modified. Also, the alignment change for route 4 will be revised before being introduced, as suggested by Gene Caywood. Davita mentioned her team is advocating to get a modified signal at the Laos Transit Center, but funding has not been secured. Regarding the frequency of route 37, it is not in the first phase of changes.

Gene made a motion to approve the revised proposed COA route change recommendations. Margot moved Gene's motion forward, Suzanne seconded the motion, and, hearing no objections, the motion was approved by Riley.

The motion was the following:

COA ROUTE CHANGES MOTION

Passed by the Tucson Transit Advisory Committee at their meeting of 6/3/2024

The TTAC wants to thank and compliment DTM and Sun Tran staff for heeding the comments of the public and TTAC members, by modifying the original COA route change recommendations. The modifications made retain existing routes that were slated for elimination, and thus preserve elements essential to many riders and the cohesiveness of the Sun Tran system.

TTAC recommends the Mayor and Council approve the revised proposed COA route change recommendations, with the following exceptions:

- Route 9 – Instead of reducing headways from 20 min. to 30 min., short turn every-other bus to provide headways thus:
 - Pima College West to Fairview and Grant – 30 min.
 - Fairview and Grant to Grant/Kolb and Tanque Verde – 15 min.
 - Grant/Kolb and Tanque Verde to Pima College East – 30 min.
- Route 37 – Do not reduce the headway from 30 min. to 40 min.
- Route 12 and 24 merger – Modify the traffic control signal in front of Laos to allow buses to make a left turn out of Laos onto WB Irvington Rd, allowing the S. 12 Ave. route (and other routes heading west) to continue serving Laos.

NO ACTION TAKEN

10. Tucson Norte-Sur Update – 15 minutes

Monica Landgrave-Serrano presented a summary on the Tucson Norte-Sur project. Angie mentioned there are trust issues regarding individuals that have lived here forever, multigenerational families, community members worried about gentrification and displacement. Margot said the public outreach process with Connectors is a very impressive effort, especially with local businesses, it is hard and expensive but worthwhile. However, Margot says churches were not contacted and they would welcome a chance to be part of the process.
