## AGENDA

Roll call, and approval of the November 2025 meeting minutes. (Committee members must abstain from voting on minutes if they missed the preceding meeting. For approving the minutes, the majority of voting members is sufficient – quorum is not needed.) (BAC Chair leads the discussion)	
<b>2. Call to the Public.</b>	<b>10 min/6:10</b>
Opportunity for the public to address the TPCBAC. Due to time constraints, the total time allocated for this item is 10 minutes and all individuals will be limited to 3 minutes each.	

If additional time is needed to address a particular issue, it may be considered for addition to the agenda at a future meeting. Additionally, comments from the public submitted to our website will be shared anonymously.  
(BAC Chair leads the discussion)

Updates on any Emails to TPCBAC.

### **3. Updates from Law Enforcement.**

**10 min/6:20**

Status report from the Tucson Police Department (TPD) regarding any recent or upcoming bicycle-related actions or activities. Questions for TPD representatives.

(BAC Chair leads the discussion)

Discuss also recent accidents on Hawk signals (see last meeting, where Law Enforcement was not present):

- Ask law enforcement on bicyclist (and pedestrian) fatalities / accidents statistics at Hawk signals.
- At least two bicyclist fatalities occurred in Tucson in the recent past (one just in the last few days). And what is the statistics about pedestrian safety at Hawk Signals? <https://www.kold.com/2025/11/17/bicyclist-dies-after-crash-tucson/>
- The recent triple fatal pedestrian crash at Euclid and 2nd Street also prompts request for a Hawk signal there.  
<https://www.kold.com/2025/11/04/site-triple-fatal-pedestrian-accident-getting-safety-improvements/>
- But is Hawk really the best option? Many bicyclists report cars not properly stopping (Personal experience: ~2% of all Hawk crossings – one car runs on red.)  
<https://www.bicycletucson.com/all-posts/bicyclist-struck-last-week-dies/27370>
- As potential alternative: What about a regular looking traffic light that is always green and turns red when requested?
- Robust studies comparing Hawk safety (and overall traffic flow) to other options appear still sparse.
- Likely to be followed by another future discussion – also with traffic engineers

Law enforcement invited to stay for next agenda item.
